## HEXAGONAL NETTING

## HDG 1050x31x18g

- Hot dipped galvanised.
- This netting is a heavy duty version of the 1050x31x19g.
- It has 18g wires for extra strength.
- It has integrated selvedge wires and is heavily galvanised after manufacture making it very long lasting and strong.
- The netting can be buried or turned out in the direction of the threat to prevent rabbits digging under.
